

## With Appreciation to Businesses which Sponsored Programs and Supported the Council through Corporate Membership in 2017, the WIP Council Acknowledges and Celebrates Leading Companies

Thanks to each of the following companies, the WIP business council trained hundreds of future and current leaders, connected industry colleagues, and provided a nationwide mentoring network to propane professionals across the country in 2017. The success of our industry's launch into the next year and beyond is largely dependent on their generous, continuous and valuable support. The council and the industry THANK YOU!
