SEPTEMBER 2019

NPGA Business Council

WIP Annual Meeting Sunday September 29 Farmington PA

Women in Propane’s Annual Meeting takes place on Sunday, September 29 from 3:00-5:00 p.m. With an agenda that updates members on the new slate of officers and new initiatives for 2020, this meeting is open to all attendees of the NPGA Fall Board Meeting. And on Monday Sept. 30, join your colleagues at the WIP Networking Luncheon from 11:45 a.m.-1:00 p.m. at the resort. Register here. Registration ends October 1.

DISC ON THE ROAD

Training for Success...Conveniently Facilitated at your Location

By popular demand, the nationally-acclaimed and powerful DISC® training comes to your workplace. Women in Propane is now scheduling expert training widely used by top companies in the U.S.

DISC ON THE ROAD is available at your business location. Two certified trainers will travel to your team and provide knowledge that benefits improved working relationships, better teamwork and more well-rounded and effective leaders.

DISC ON THE ROAD provides three training options:
#1 Everyday Workplace Training
#2 Management Training
#3 Sales Training (new this year)

“The training offered excellent insight for our leaders. It was well constructed and a valuable investment for our team.”

— James W.

DISC training is the highest-rated behavior profile training in the country. DISC ON THE ROAD delivers an affordable solution to leadership training needs at your place of business.

Due to exceptionally accurate, personalized profiles created through online DISC assessments, your team knows from the outset that what they are learning is going to truly help them be much more effective in their workplace relationships and performance. The curriculum helps individuals understand their own and others’ behavioral styles, which are a combination of four tendencies:

- Dominance
- Influence
- Steadiness
- Conscientiousness

Designed to provide a better learning experience than the traditional classroom model, DISC training is interactive through various techniques including hands-on activities and video learning.
