

## NPGF Awards 110 Scholarships Totaling \$147,000!

The National Propane Gas Foundation Scholarship Fund (NPGF/SF) recently awarded 110 scholarships totaling \$147,000 to students for the 2022/2023 academic year. These awards provide financial assistance to the children of NPGA member company employees enrolled full-time in two- and four-year college and technical programs across the country.

The NPGF/SF is proud to support the families who drive our industry and is grateful to the generous supporters who help make the scholarship program so successful – our scholarship establishers, Corporate Partners, and all our other donors. In 1995, NPGF awarded its first scholarships to three students. Since then, NPGF has provided \$2,252,500 in scholarships to more than 1,500 deserving students, helping them achieve their educational aspirations.

The scholarship application for the 2023/2024 academic year opens on December 15, 2022. Students may receive up to four years of financial support to pursue any course of study at a two- or four-year college or university or vocation/technical/trade school. As part of its commitment to the propane industry, NPGF/SF especially encourages young people who are pursuing propane-related careers as commercial truck drivers, electricians, gas fitters, HVAC technicians, pipe fitters, and plumbers to apply.
